

## Import Track and Field Reminders- Part 1

1. We will dismiss on Wednesday at 2:45. As students meet in the gym area we will count how many 7<sup>th</sup> graders and how many 8<sup>th</sup> graders are planning to compete. Hopefully we will have a bus seat for each person present. If not, our plan is to fill the bus alphabetically. Those who are not able to fit on the bus will be given priority the next time that grade level competes.
2. All 7<sup>th</sup> and 8<sup>th</sup> graders should now have uniforms. They are returned at the end of the season and must be paid for if misplaced. Please take care of it.
3. 6<sup>th</sup> graders will receive uniforms before their first competition.
4. If you're grade level is not competing on a specific day you can compete if your parent/guardian drives you to the competition.
5. The order of events for Wednesday will be handed to you on the bus. We will also make an effort to have copies for parents/guardians and other family members.
6. At the end of the competition you may ride the bus home or you may leave with your parent/legal guardian. You may not ride home from the competition with friends, neighbors, or anyone aside from your parent/legal guardian.
7. As we discussed at the parent meeting and in our orientation paperwork, our team rule is that everyone who attends the competition must stay until the final event, the 4 x 100 meter relay, is finished. If you know that you have another commitment that day, you may skip our track and field competition but please do not attend unless you plan to stay for the entire competition. Parents, please extend us the courtesy of not engaging coaches in conversations about dismissal until after the relays. The priority of the coaching staff is to coach the kids until the competition is completed. Following the last event we will be more than happy to speak with you.

---

Final reminder- this one pertains to practice- please remember, as we discussed at the parent/guardian meeting and in our paperwork, students may get picked up at Rosa at the end of practice. However, anyone who is getting picked up must ride the bus if the person driving the student home does not arrive before the bus is ready to depart.
