February 2, 2017

Dear Parent(s)/Guardian(s) of our Quebec trip participants:

This letter is to inform you that Cherry Hill Public Schools is aware of the recent incident that happened right outside of Quebec City this past weekend. With our students traveling to Quebec City next week, we wanted to assure you their safety is our priority.

When arriving in Quebec, the students will be together as a school group for the majority of activities with four chaperones. If the school group breaks up into smaller groups to attend attractions and activities, they will each have a designated chaperone. In the hotel, there is a guard posted outside the block of rooms to make sure no one is roaming in and out of the rooms at night. As we walk around in the city, chaperones are posted at various points among the students to make sure that everyone is together as a group.

As aligned with our past practice, our teacher chaperones at both Carusi and Rosa will be sending updates to school administration throughout the trip. Teacher chaperones have past experience supervising this trip and keeping track of our children while providing an amazing educational experience.

We feel confident that our plan will ensure a focus on providing a safe trip and lifelong memories.

Yours in this educational journey,

Dr. John J. Cafagna
Principal of Carusi Middle School

Mr. George Guy
Principal of Rosa International Middle School
