To Prospective Cherry Hill East Football Player and Parents,

First of all, I want to thank you for considering being a part of the football program here at Cherry Hill East High School. It's no secret that for a school having such high academic standards, and with a student body population of nearly 2,200 students, that the overall success of the program, particularly the participation numbers, have been lower than what is expected of an institution of this caliber. It takes a special person to play football at the high school level, and playing football has taught me skills that I still use today when addressing certain situations, or raising a family at home. Football teaches us how to overcome adversity. Right now I believe it's easy for a player to decide that they don't want to come out for the football team, but it is our job to change that way of thinking, and we need to do it together. I plan on restoring a culture at East that is based off of high energy, and excitement. Players will be excited to play, students will be excited to come to the games, and faculty and staff we all promote a healthy and winning attitude towards our team. My goal is to achieve academic and athletic excellence through hard work and dedication. Our players will be class acts not only on the field, but in the classroom, and as members of their communities as well. I am extremely honored and excited about the opportunity to make East one of the premier programs again in South Jersey, but I can't do it alone. This incoming freshman class will be the foundation for the future success of the program. Our freshman will be coached by varsity coaches, and held to the same standards as our varsity players. Our staff is experienced and energetic, and I have no doubt that our players will be successful in the classroom, in the community, and on the football field. Thank you.

Sincerely, Andrew Daley
