

MEDICATION PERMISSION FOR WASHINGTON, DC FIELD TRIP

Cherry Hill District Policy and NJ State Law require that all medication must be administered by a nurse. **ONLY medically necessary medications** will be administered by the nurse on the trip. Please administer any daily evening dose of medications to your child before the trip and your child's morning dose when he/she arrives home in the morning following the trip. *Keep in mind that we are at a museum and there is not a private medical area to administer medication.*

- All medications including over the counter medications **require a doctor's written order.**
- The only exception is Acetaminophen (Tylenol) and Ibuprofen (Advil or Motrin) which can be given with the permission of a parent/guardian.
- All medication must be labeled clearly and given to the school nurse by **Thursday, May 24th.**
- Medications MUST be in the original pharmacy bottle with the label intact. Do not include extra doses. It must be in a ziplock bag with the student's name.
- One medication form should be used for each medication. If additional forms are needed, please contact Angela Mooney at x3317.
- If you child already has an Asthma Action Plan and/or orders for Epinephrine, you do NOT need to provide new orders. They can continue to self-carry their medication.

I request the enclosed medication to be administered to my child according to the physician's written orders which will accompany the medication.

PARENT/GUARDIAN SIGNATURE: _____ DATE: _____
