

Parents, Guardians, and Athletes,

Yesterday afternoon we received an email stating that the facility that is scheduled to host our League Championship has not been approved for hosting events. Because of this situation, the host of the Championship has made the decision to cancel the event for this year.

You may have heard that another middle school in our area is hosting a pseudo-championship of their own. Upon learning that our competition for next Friday was cancelled I immediately reached out to see if we could attend the 2nd “championship”. Unfortunately, I learned only now that the host school has decided, regrettably, to limit their event to 10 teams and that we would not be accepted.

Consequently and unfortunately, our season has concluded. We wanted to share this in writing because the information that we have shared here does not line up with the calendar that we shared at the start of the season.

Thanks for a great season.

Matt Cieslik (Head Coach)
